# Introduction

---

**THE TRAINING PROGRAM ON 'TRANSPORTATION OF DANGEROUS GOODS' (TDG) - A JOINT INITIATIVE BY THE CHARTERED INSTITUTE OF LOGISTICS AND TRANSPORT – INDIA AND THE CENTER FOR LOGISTICS LEADERSHIP IN BUSINESS, MALAYSIA**

## **Why Choose TDG Training with CILT India?**

This course aims to offer a comprehensive and extensive understanding of the BIS standard IS 18149:2023, 'Transportation of Dangerous Goods.' The standard is designed to establish uniformity and enhance the quality of services provided by transportation agencies.

The Chartered Institute of Logistics and Transport (India) played an integral role as a major contributor and served as one of the lead partners in drafting this standard.

## **About Chartered Institute of Logistics and Transport (India)**

Established in 1987, the Chartered Institute of Logistics and Transport (India) stands as the preeminent professional body within the Logistics and Transportation industries in India. With over 36 years of experience, CILT (India) has been a hub for logistics professionals, offering training programs and fostering collaboration. The institute holds a crucial Memorandum of Understanding (MOU) with the Department of Logistics, Ministry of Commerce & Industry, Government of India, facilitating dialogue between the government, industry leaders, and logistics service providers.

At CILT India, we have been at the forefront of providing unparalleled training programs in the dynamic realms of logistics and

transport. Our past sessions on Inventory Clerk, Warehouse Management, Port Management, and Terminal Management have garnered widespread acclaim from industry experts and participants alike. The success of these programs has not only motivated us but also brought forth a resounding demand from our participants.

## **Center for Logistics Leadership in Business (CLLB)**

A training and consultancy organization established in 2003 in Malaysia. It was founded to address the human capacity development needs in the logistics and supply chain management field. CLLB has gained recognition and approval from several government bodies and international organizations

CLLB is approved by the Malaysian Human Resource Ministry and the Ministry of Finance, which demonstrates its credibility and adherence to industry standards. Additionally, CLLB holds approval from the Malaysian Marine Department for IMDG Code training, focusing on the safe handling and transportation of dangerous goods.

More than 15 years experience in Logistics, Supply Chain Management Maritime Training & Consultancy CLLB has trained approximately 3000 participants who have obtained their certification as 'Competent Person' in the IMDG Code from the Malaysian Marine Department (MARDEP).

# THE TRAINING PROGRAM

---

## Overview

Transportation of Dangerous Goods (TDG) is a paramount activity demanding unwavering commitment to safety standards, safeguarding against accidents, and preserving public health and the environment. The responsible management of these materials requires meticulous care and a keen sense of caution.

Our Transportation of Dangerous Goods (TDG) Certification Program stands as a beacon for individuals seeking to excel in the safe handling, transportation, and management of dangerous goods, while ensuring strict compliance with regulatory requirements.

In this comprehensive course, participants delve into the intricacies of provisions and guidelines governing Sea, Air, and Road transport of Dangerous Goods. The program highlights the pivotal responsibilities of shippers and imparts crucial insights into the preparation and rationale behind safety data sheets. Participants will develop a profound understanding of the paramount importance of segregation in mitigating potential risks associated with incompatible Dangerous Goods.

## Training Highlights

- **Exhaustive training in the BIS standard IS 18149:2023**
- **Comprehensive Curriculum:** Sea, Air, and Road transport of dangerous goods.
- **Expert Instructors:** Learn from experienced industry professionals.
- **Practical Insights and Case Studies:** Knowledge through real-world scenarios.
- **Certification:** Validates proficiency and commitment to safety.
- **DG and Hazardous Goods:** Articulate and define concepts.
- **Laws and Regulations:** Outline governing rules for DG movement.
- **Role of UNRTDG and UNCED:** Explain their roles in DG classification.
- **Packing Groups and Hazard Categories:** Understand their roles in safe transport.
- **DG Classes, UN Numbers, and PSNs:** List and comprehend their roles.
- **Packaging and Requirements:** Identify types and apply general requirements.
- **Exceptions to Packaging:** Define and understand special cases.
- **Cargo Transport Units (CTU):** Identify types and understand properties.
- **Marking, Labeling, and Placarding:** Demonstrate proper procedures.
- **Compatibility Identification:** Apply segregation principles for compatibility.
- **Role and Function of Dangerous Goods and Safety Advisor (DGSA)**

## Industries benefiting from the TDG Certification Program

Our Transportation of Dangerous Goods Certification Program is specifically designed to cater to the needs of professionals in specialized industries, including:

**Transportation and Logistics:** *Equip your team with the necessary skills to handle and transport dangerous goods securely, while ensuring compliance with industry regulations.*

**Manufacturing:** *Safeguard your production processes by training personnel involved in safe handling and transportation of hazardous materials.*

**Chemical Industry:** *Ensure that employees involved in the transportation of chemical substances are well-versed in safety protocols to minimize the risk of accidents..*

**Oil and Gas:** *Enhance safety measures by providing specialized training to employees engaged in the transportation of dangerous goods.*

**Environmental Sector:** *Addressing the importance of environmental protection, our program ensures that professionals understand and adhere to eco-friendly practices in the transportation of dangerous goods.*

## Who Should Attend?

This training program is ideal for:

- Transportation professionals
- Warehouse and logistics personnel
- Safety officers
- Individuals involved in any aspect of the transportation of dangerous goods within the above mentioned industries.

## Key Benefits

- **Practical Skills:** Acquire hands-on, practical skills crucial for the safe handling and transportation of dangerous goods.
- **Legal Compliance:** Gain a comprehensive understanding of regulations and standards, ensuring legal compliance in every aspect of transportation of dangerous goods.

## Mode of Training: GOOGLE MEET (A video conferencing software)

*The online training facilitates flexibility while maintaining the depth of content, allowing participants to acquire practical skills and legal compliance knowledge from any location.*

## Course Modules and Contents

MODULE	FOCUS AREAS
Introduction to Transportation of Dangerous Goods	Overview of the Transportation of Dangerous Goods industry, Role of safety personnel ensuring safe moment of goods.
Comprehensive Classification	In-depth classification criteria with Implications for safe transport
Decoding the Dangerous Goods List	Examination of Dangerous Goods List and associated risks
Mastering Packaging Protocols	Importance of packaging requirements for secure packaging
CTU Mastery: Cargo Transport Units	Types of Cargo Transport Units, Properties and requirements
Seamless Consignment Procedures	Step-by-step guide to Documentation and processes for seamless movements.
Regulatory Insight: Transport Operations	Understanding regulations and provisions for safe transport operations

## Our Expert Trainers

FACULTY NAME	DESIGNATION
Reshma Yousuf	Founder & Managing Director, CLLB, Malaysia
Veni Mathur	Vice Chairperson, CILT India
Manash Ganguli	CEO & Partner, Oceanic Express LLP
Vinod Asthana	Former MD, Central Railside Warehouse Company Limited
Rajesh Nigam	Former ED, <i>(Supply and Distribution)</i> , Indian Oil Corporation Ltd.

## Certification

Upon successful completion of the Transportation of Dangerous Goods (TDG) Training Program, participants will receive a certification ***jointly issued by the Chartered Institute of Logistics and Transport (CILT), India and the Center for Logistics Leadership in Business (CLLB), Malaysia.***

This prestigious certification attests to the acquisition of essential skills and knowledge in ensuring the safe and compliant transportation of dangerous goods, recognized by industry leaders and regulatory authorities.
